018402972	5	8"	72"	40"	29"	02429	029429

# THE SIDE APPROACH

## High Performance Safety Surface

Dura-Grip II™ Fiberglass Steps have a textured, slip resistant stone-like surface that gives better footing in all weather conditions. The receding riser gives the step 12" of surface for the foot and gives the unit a contemporary look.

## Complementary Color

Our color is a combination of several different crushed aggregates. The secret combination of these elements produces a color that complements almost any siding or skirting on the market today.

## Faster Rail Mounts

Mounting rails is a snap. Just align the rail posts with pre-drilled holes (which has steel sleeves so no drilling is required) and tighten the bolt. Takes 5 minutes, tops!

## Standard & Deluxe Railing Systems

Install Standard Railing System for an economical choice. Choose the Deluxe System with an extruded aluminum railing for added strength and safety. All Style Crest rails meet or exceed most federal, state, and local code requirements.
